

Education

Alt-School Africa

04/2024 - 04/2025

Diploma in Front-End Engineering

Completed a 12-month program in HTML, CSS, JavaScript, React, and modern frontend technologies. Developed scalable, user-friendly web applications with a focus on responsive design and API integration through portfolio-ready projects.

Skills

Technical Skills:

- **Languages & Frameworks:**

JavaScript, React, Vue, HTML, CSS

- **State Management:** Redux Toolkit, Context API

- **APIs & Backend:** REST APIs, Firebase

- **Tools & Platforms:** Git, GitHub, Vercel, Netlify

- **Other:** Responsive Design, UI/UX Best Practices, Debugging

Soft Skills

- Problem-Solving, Communication, Collaboration, Time Management
- Attention to Detail, Adaptability, Critical Thinking, Creativity
- Continuous Learning

JAH'SWILL UCHECHI EMMANUEL

Front-End Engineer/Developer

Experience

Front-End Engineering Student

AltSchool Africa | 04/2024 - 04/2025

- **To-Do App** – Built a task manager with search, filtering, pagination, and modals for efficient task management.
- **Weather App** – Developed a weather tracker using OpenWeather API with real-time updates, geolocation support, and a 3-day forecast.
- **Conference Ticket Generator** – Designed a React-based ticket generator with form validation, avatar upload, and local storage persistence.
- **Movie App** – Created a React-powered movie search platform using the OMDB API, featuring genre filtering and a Redux-managed watchlist.
- Applied UI/UX best practices, API integration, and problem-solving in hands-on projects.
- **Tech Stack:** JavaScript, React, Redux, Firebase, API Integration
